

# Design Standards Letter

**Letter Number: S-2001-03**

**Letter Date: 06/04/2001**

**Effective Date: 07/01/2001**

**Section/Plan No.: S1020.1, S1020.2, S1020.2.9**

**Subject: Revised Supplemental Specifications to 1999 Missouri Standard Specifications for Highway Construction**

## Body

-----  
Quarterly updates for the Supplement to the Standard Specifications were sent out on March 29, 2001. Changes included revisions that modified Secs 1020.1 and 1020.2 to require aluminum galvanizing (rather than zinc) unless otherwise specified. Sec 1020.2.9 was added to require all corrugated steel pipe, pipe arches, flared end sections and specified appurtenances be coated with an aluminum coating.

These changes have been rescinded by the Missouri Department of Transportation. Please remove these changes from your Supplemental Specifications effective July 1, 2001.

Questions concerning the Supplemental Revisions to the Standard Specifications should be directed to Kirsten Munck, General Headquarters, Design Standards, at 573-526-2919 or David Silvester at 573-526-2903.
