

Design Standards Letter

Letter Number: **S-2006-04**

Letter Date: **05/26/2006**

Effective Date: **07/01/2006**

Section/Plan No.: **See Below**

Subject: **Revised Supplement to the Standard Specifications**

Body

The Supplemental Specifications to the 2004 Missouri Standard Specifications for Highway Construction, effective July 1, 2006 are now available.

Questions regarding the Supplemental Revisions to the Standard Specifications should be directed to Brian K. Williams, Central Office, Engineering Policy Group, at 573-751-9254 or me at 573-751-38713.

NOTE	EXPLANATION
1	The following revisions are effective with the July 2006 bid opening
SECTION	DESCRIPTION OF SPECIFICATIONS REVISIONS
303.2	Deleted the last sentence requiring additional mechanical processing beyond excavation.
303.2.1	Added the notation of “by weight” to how the 10 percent of earth, shale and non-durable rock would be evaluated.
303.2.2	Added the word “approximately” to describe the referenced particle dimensions. Also deleted the last sentence in the section requiring the material to be graded from coarse to fine.
303.3.3	Changes to this section cover placement of thicker rock base when approved by the engineer. Additional wording was added to address particle dimension.
613.10.2.2	The sentence referencing tie bars to be No.6 bars, 18 inches (450 mm) long; and epoxy coated was deleted.
