

Design Standards Letter

Letter Number: S-2007-02

Letter Date: 04/27/2007

Effective Date: 06/01/2007

Section/Plan No.: SEE BELOW

Subject: Revised Supplement to the Standard Specifications

Body

The Supplemental Specifications to the 2004 Missouri Standard Specifications for Highway Construction, effective June 1, 2007 are now available. These revisions will be in effect with the June 2007 bid opening.

Questions regarding the Supplemental Revisions to the Standard Specifications should be directed to Brian K. Williams, Central Office, Engineering Policy Group, at 573-751-9254 or me at 573-751-3813.

MAJOR REVISION:

Sec 102 – Sec 102.7.6 was amended to allow the digital ID of an authorized person to sign bids for a company as specified on the contractor questionnaire. This language was previously included in the Supplemental Revisions Job Special Provision.

Sec 304 - Sec 304.3.4.2 was revised to lower compaction requirements for Type 5 aggregate to 95% of the standard maximum density.

Sec 1042 - Sec 1042.2.7 was revised to address orientation of sign sheeting and incorporate high intensity prismatic sheeting into the specifications. MoDOT Type 5 sheeting was also deleted from the specifications and subsequent sections were renumbered.

Sec 1063 – Sec 1063.8.2 through 1063.8.3 were revised to provide a more performance-based specification that will be capable of interfacing with increasingly advanced traffic management systems and current electronic industry software. This language was previously included in the Supplemental Revisions Job Special Provision.
