1590 Woodlake Drive  
Chesterfield, MO 63017-5712/

Subject: Civic Center Drive Reconstruction Project  
Federal Project Number: STP-7302 (623)  
Retaining Wall Block, Pavers and Bollards

Dear Ms. Ellen:

With regards to the Civic Center Drive Reconstruction Project, the City of Lake Saint Louis is requesting approval to use the proprietary Diamond Retaining Wall System, Hessit Works Pavers and Kim Lighting "VRB1-100PMH120-BL" round bollards.

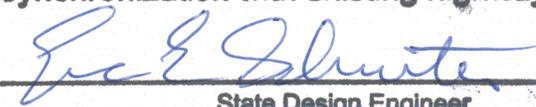

The City is requesting proprietary use of the Diamond Retaining Wall System, Hessit Works Pavers and KIM bollards to match the existing facilities on the project and provide aesthetic consistency which is essential to the synchronization of the facilities. The City stocks replacement materials for the aforementioned products at their maintenance facility for repair and replacement as needed.

If you have any questions, please call me at 636.695.4221.

Sincerely:

Terry Rigdon  
Project Manager

**I do hereby certify that in accordance with the requirements of 23 CFR 635.411(a)(2), this patented or proprietary item is essential for synchronization with existing highway facilities.**
