SUBJECT: Public Interest Finding
Blackhurst Hardin Sidewalk Improvement Project
SRTS-INF-H32F(104)

With reference to the above mentioned project, we request approval of a finding in the public interest to use 11 ½" water meter lids manufactured by Bingham and Taylor. The model numbers include BTC3L-WS, BTA3L-WS and BTC3L-WSDD.

The City of St. Charles Water Department requests that this specific lid be used in the adjustment and replacement of water meter lids required due to the Blackhurst Hardin Safe Routes to School project. The meters and lids will be adjusted to conform with current ADA requirements.

The City currently utilizes this specific lid and has installed this lid in many locations throughout the City. The lid is compatible with the City of St. Charles Meters and provides the appropriate opening for the touch frame reader. This lid allows the transmitters to be recessed and placed so as to conform to ADA requirements. The City believes that this request complies with 23CFR635.411(2)(2) as essential for synchronization within our water distribution system.

If you have any questions, please call me at 636-940-4617.

Sincerely,

Brad W. Temme, P.E.
Project Manager
