May 14, 2015

I do hereby certify that in accordance with the requirements of 23 CFR 635.411(a)(2), this patented or proprietary item is essential for synchronization with existing highway facilities.

FOR State Design Engineer

Request for a Finding in the Public's Interest.

Project Number: BNTN TRLK (1) 19900(744) Federal Land Access Program
Route and County: USACE levy in Benton County. Swinging Bridge Road

The City is requesting approval of a proprietary item for use on the above referenced project. In order to meet the purpose and need of the project, the City requests the usage of the Halophane lights for an extension to the Warsaw Trail Network.

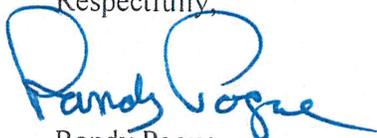

The Halophane Light allows the City to provide a consistent flow of hardscape that compliments several features of the Drake Harbor Recreation Area and adjoining downtown.

Although other products for this need and usage exists, the City request that this specific product be used to stay historically correct with lights of the early 1900's. One remaining light still exists from the 1900's to document the historic attempt.

The City is interested in making this product the standard product for all City inventories and future usage. Our maintenance inventory and repair processes and staff training will be oriented around the usage of this product. Additionally, usage of this product will establish the aesthetic appearance of our streetscape, for which future projects will support.

In accordance with 23 CFR 635.411(c) we request your approval of this proprietary item.

Respectfully,

Randy Pogue
City Administrator and Planner
